## **INSTRUCTIONS FOR USE**

### **SPEED EDGE Protection Products**

#### **General Notes:**

- 1) When working at or near exposed edges, workers must use fall arrest equipment meeting the requirements of the Ontario Health and Safety Act.
- 2) Always wear approved safety equipment (hard hat, steel toe boots, safety glasses, and gloves).
- 3) Never use any *Speed Edge* protection product to tie off fall arrest equipment.
- 4) All workers must have a valid Certificate of Training for installation and dismantling of *Speed Edge* protection products.
- 5) Always follow "Instructions for Use" documents when installing and dismantling any *Speed Edge* protection product. Do not use products in any other way than shown.
- 6) Ensure all product components are complete, undamaged and in good working order prior to installation.
- 7) Prior to installation, confirm concrete is at appropriate strength to support equipment and equipment fasteners.
- 8) Prior to installation, confirm plywood surface is undamaged and capable of supporting equipment and equipment fasteners.
- 9) Store and transport equipment in appropriate packaging and keep in a dry clean area.
- 10) When installing/dismantling equipment over an exposed edge, ensure it is properly tethered until fully installed or secured.
- 11) Always use fasteners noted in "Instructions for Use" documentation.
- 12) *Speed Edge* protection products are not to be used for supporting construction materials in any way or form.
- 13) Always respect capacity ratings of *Speed Edge* protection products.
- 14) *Speed Edge* protection products are designed for use on construction sites and should not be used in any other environments.
- 15) Products liability only applies to combinations of *Speed Edge* protection products that are assembled according to *Speed Edge* "Instructions for Use".
- 16) For other provinces or territories, refer to your local safety codes and standards.
- 17) For any question related to installation contact us at: info@dell-core.com or (905) 660-5459.

## **INSTRUCTIONS FOR USE**

### **SPEED EDGE Protection Products**

*Speed Edge* protection products have been designed for quick, efficient and safe installation of edge protection to buildings and structures under construction.

The *Speed Edge* protection system does away with the need to drill the concrete slab and bolt post anchors in position. No special tools are required for installation.

The *Speed Edge* protection system is built to current Health and Safety Act Standards.

*Speed Edge* is the most labour friendly and economical edge protection system on the market.

### **Speed Edge Products:**

- 1) Safety Fence (KF)
- 2) Speed Post Velocity (SPV)
- 3) Extension Post (KP)
